## TRAININGS / CERTIFICATIONS

### Web Development

Mar 2024 - Present

Ducat, Gurugram Sub-District

The web development training at our coaching institute offers a comprehensive curriculum designed to equip you with the essential skills to build modern web applications. The program covers HTML, CSS, JavaScript, and popular frameworks like React and Node.js, providing hands-on experience through real-world projects. With expert instructors and a focus on practical learning, you'll gain a solid foundation in both front-end and back-end development, preparing you for a successful career in the tech industry.

## PROJECTS

### [Job Hunt ↗](#)

Jul 2024 - Sep 2024

"Job Hunt" is a MERN stack web app that simplifies job searching. Users can create profiles, search and apply for jobs, and track their applications. Employers can post job listings and manage candidates. Built with React for a smooth user experience, it uses MongoDB to store data, with Express and Node.js handling backend processes. This project showcases your ability to build a full-stack solution for job seekers and employers.

## SKILLS

- HTML
  - JavaScript
- CSS
  - ReactJS
- Tailwind CSS
  - Redux

## EXTRA CURRICULAR ACTIVITIES

- Developed a full stack project for the final year practical exam with a team. Blog junction developed using the MERN stack is to provide a scalable and responsive application for users to create, manage, and interact with blog content seamlessly.
